Tells How to Stop a Bad Cough

Surprising results from this famous old home-made syrup. Easily prepared and costs little.

If you have a severe cough or chest cold accompanied with soreness, throat irritation, hoarseness, or difficulty breathing, or if your child wakes up during the night with a cough and you want quick help, try this reliable old home-made cough remedy. Any drugstore can supply you with 2½ ounces of Pinex. Pour this into a pint bottle and fill the bottle with plain granulated sugar syrup. Or you can use clarified molasses, honey, or corn syrup, instead of sugar syrup, if desired. This recipe makes a pint of really remarkable cough remedy. It is good, and in spite of its low cost, it can be depended upon to give quick and lasting relief. You can feel this take hold of a cough in a way that means business. It loosens and raises the phlegm, stops throat tickle and soothes and heals the inflamed membranes that line the throat and bronchial tubes with such promptness, ease and certainty that it is really astonishing.

Pinex is a special and highly concentrated compound of genuine Norway pine extract, and is probably the best known means of overcoming severe coughs, throat and chest colds.

There are many worthless imitations of this mixture. To avoid disappointment, ask for "2½ ounces of Pinex"—just like peeling a banana. It takes a second or two to apply "Get-It." The pain will vanish—that'll keep you sweet while the "Get-It" does the rest. Nothing new for corns has been discovered since "Get-It" was born. Follow the judgment of the millions: use "Get-It" and be sure to use it as directed. There's no fussing or putting Corn-pains will vanish—that'll keep you sweet while the "Get-It" does the rest. Nothing new for corns has been discovered since "Get-It" was born. Follow the judgment of the millions: use "Get-It" and be sure to use it as directed. There's no fussing or putting

Only One Corn Peeler, "Get-It"

Stop Corn Pains; See Corn Peel Off.

It is just when a corn hurts that you want to feel surest about getting rid of it. Why take chances of keeping the corn and having the pain grow worse? You'll use "Get-It" anyhow, sooner or later. The only sure way to get rid of a corn is to use "Get-It." It is a special and highly concentrated compound of genuine Norway pine extract, and is probably the best known means of overcoming severe coughs, throat and chest colds.

There are many worthless imitations of this mixture. To avoid disappointment, ask for "2½ ounces of Pinex"—just like peeling a banana. It takes a second or two to apply "Get-It." The pain will vanish—that'll keep you sweet while the "Get-It" does the rest. Nothing new for corns has been discovered since "Get-It" was born. Follow the judgment of the millions: use "Get-It" and be sure to use it as directed. There's no fussing or putting

AMERICA'S BIG EFFORT IN WAR IS STUNNING

AMERICAN HEADQUARTERS IN FRANCE, Nov. 21. (By the Associated Press.)—The extent of America's military effort in France at the time the armistice was declared, is shown by statistics which the Associated Press now is permitted to make public. While the stupendous figures are in themselves amazing, they show only a part of the great effort made in war preparations.

On the morning of Nov. 11 the United States had 33,000 officers and 1,881,376 men, a total of almost 2,000,000. As has already been announced, there were 50,000 combat troops in the Argonne forest. This number does not include the American units engaged on other parts of the front.

Man power alone, however, was only one factor in the preparations for American participation in the war. Behind it lay vast machinery which was required in operations. Railways and motor roads were constructed, and across the sea was brought locomotives, cars, rails and motor transport of every kind. Behind this was the requisite food, clothing and general supplies for the men, as well as dockage and warehouse construction.

The American army has brought over to France and has in operation 247 standard-gauge locomotives and 1,314 standard-gauge freight cars of American manufacture. In addition it has in service 80 locomotives and 1,314 cars of foreign origin. Eight hundred and forty-three miles of standard-gauge railway were constructed, 400 miles of which were completed since June 1. In addition there were built 115 miles of light railways and 40 miles of German light railways were repaired and put in operation. Two hundred and twenty-five miles of French railway were operated by the Americans.

These figures represent a fairly good-sized American railway company, but railways represent only a fraction of the transport efforts. Modern warfare is motor warfare, and it is virtually impossible to present a picture of this phase of the work of the American army. In building new roads, in keeping French roads repaired and in constructing bridges, American engineers worked day and night. To do this the American expeditionary forces had in operation on Nov. 11 more than 83,000 motor vehicles.

Even at the present stage of the armistice, which may precede peace, it is not permissible to hint at the vast stores of munitions which have been brought over and held in readiness. The Associated Press, however, is allowed to give approximate figures showing what has been accomplished in the accumulation of food supplies.

In army terms one ration represents the quantity of each article which is entitled to daily. It is interesting to note the supply of some of the principal ration components held today. For instance, the Americans have 250,000,000 rations of beans alone; 183,000,000 rations of flour and four and a half times as much of sugar. They have 267,000,000 rations of milk; 161,000,000 rations of butter or substitutes; 143,000,000 rations of eggs; 83,000,000 rations of meat; 57,000,000 rations of coffee and 113,000,000 rations of rice, hominy and other staples. They also have 1,000,000 rations of candy and 781,000,000 rations of cigarettes and tobacco in other forms.

Army authorities point out that these vast necessary supplies for the army represent food economies on the part of the people at home. Without such economies the work would have been virtually impossible, nor would the Americans have been able to promise certain of the allies greater assistance in meeting their requirements during the winter. The Associated Press is informed that the American army has engaged to give the French 2,000,000 pounds of meat, 5,000,000 pounds of beans and rice flour and milk in proportion. To the British 3,000,000 pounds of meat were promised, while the Belgians were assured they would receive 4,000,000 pounds of rations of all kinds.

It is difficult to describe in exact figures what the American expeditionary forces have done in the construction and improvements of dockage and warehouses since the first troops landed at Bordeaux, having a total length of 1,000 feet. At the present time, 1,000 sairs, eight berths are under construction, with a total length of over 3,200 feet.

PLEADS AGAINST NEGLECT OF AGED PREACHERS

Rev. Luther Todd, of St. Louis Conference, Has Only \$500.00 in General Fund With Goal of \$5,000.00.

JACKSON, Tenn., Nov. 21. (Sp.)—"Neglect of our old preachers threatens our church with disaster," stated Rev. Luther Todd, of St. Louis, secretary of the board of finance of the Methodist Episcopal church, South, in an address to the conference held here Wednesday. "It was 18 years ago when the church decided it would raise an endowment fund of \$500,000 for aged preachers. After 16 years we have at present in the general fund only \$500.00, less than one-twentieth of the amount needed to take care of the superannuated preachers under present estimates."

The last general conference, the speaker stated, had created the board of finance to raise a \$500,000 endowment fund to provide for the care of superannuated preachers and the widows and orphans of deceased ministers of the M. E. church, South. His plea to the conference was that during the coming year every preacher make a special effort to pay the assessments for this purpose and also to secure every possible contribution to the fund from members of their churches.

While other churches had funds for this purpose ranging from \$1,000.00 to \$125,000.00, in this particular aspect the Methodist church had been asleep and there had been entirely too much procrastination in making a special effort to attain the fund decided upon. He stated that the matter of the fund for retired preachers had been put aside so many times that many of the church had come to believe it an issue of no importance, but that now a diligent campaign would be put forth to make it a big issue during the coming and succeeding conference years.

Draws Comparison.
Rev. Todd drew a comparison between the attitude of a railroad toward an engineer and of the church toward its ministers. "The railroad," he said, "tells the engineer: If you will take care of your health, keep your engine in good running order and do your duty, we will pay you \$200 per month. If you neglect your health, let your engine go to pieces and do not do your duty, we will retire you on \$50 per month."

"The Methodist church South says to its preachers: 'You go where you are sent and do all the work there is to do, build up the church, comfort the dying, bury the dead, perform the marriage ceremony, be sure to raise all conference benevolences without fail; wear good clothes, keep your shoes presentable and don't get in debt and bring shame upon your church. For this, the church will promise to pay you an average of \$800 a year; you will get it maybe and maybe you won't. But when you have given years to the service and the time comes for you to retire, the church will pay you \$200 each year to take care of yourself and your dependents.'"

According to the St. Louis divine, the church does not pay enough attention to the recompense of its ministers and stated that with the low salaries paid and the increasing high cost of living, it was wonderful that the morale of the ministers is as high as it is.

Reports on Records.
The secretary of the finance board had prepared from the general minutes, a statement based on averages showing what the 1,000 superannuated preachers in the Methodist Episcopal church South had done during their ministry.

"They have raised assessments for benevolent purposes totaling \$10,000,000; they have raised \$3,000,000 to build churches needed to provide places of worship for 1,000,000 persons; they have raised \$2,237,000 for building parsonages to provide homes for 1,000 preachers, in which homes some of you are living right now. The total raised for old saints of the church is \$20,785,000. They have christened 125,000 children and added 700,000 members to the church; have lived lives of comfort and inspiration and love that can not be measured by figures."

In closing, he stated that there was real need in the homes of many superannuated preachers and families of deceased preachers of the church and urged that the coming conference year be the beginning of a strong campaign to properly provide for the care of these members of the church.

You Can't Make Peace With Old Man Winter

You've Got to Fight Him to a Standstill Until Next Spring With a Good Warm Overcoat. We Have That Kind—the Best That's Made Kuppenheimer Overcoats

Overcoats that have maintained their high standard of quality all through these troublous times. The same fine materials—the same faultless tailoring—the same superior values. These are the coats wise men are buying now, more than ever before.

New arrivals have kept our stock fresh and complete. You can come here and be assured of assortments of styles, patterns and material the equal of those of the beginning of the season.

MULCAHY RELEASED ON LIQUOR CHARGE
James Mulcahy, 724 Polk avenue, an old-time alleged bootlegger, was dismissed by Police Judge Fitzhugh Thursday on a charge of violating the liquor law. Three negroes presented by Mulcahy as the owner of the place, were nabbed last Saturday on the Harahan bridge with liquor, failed to incriminate Mulcahy as the owner.

Sloan's Liniment
The World's
KILLS PAIN
DON'T ENDURE RHEUMATIC PAIN! HERE'S QUICK RELIEF FOR YOU!
Stop the pain! Give me relief! That's what you want when you're hurt, down to the seat of the trouble, warm what you want when you're hurt, ing and easing the nerves and tissues. That's what you get with Sloan's Liniment. It not only "kills pain," but does it quickly, without delay. You can almost feel the inflammation, swelling or stiffness subside, as the pain grows less and less. If you're tormented by Rheumatism, Neuralgia, Sprains, Bruises, Backache, and body or nerve pain—just see how quickly a little Sloan's Liniment gives relief. The very first application rears comforts. Seems to "reach right down to the seat of the trouble, warm what you want when you're hurt, ing and easing the nerves and tissues. You can almost feel the inflammation, swelling or stiffness subside, as the pain grows less and less. If you're tormented by Rheumatism, Neuralgia, Sprains, Bruises, Backache, and body or nerve pain—just see how quickly a little Sloan's Liniment gives relief.
